DETAILED ACTION

The Examiner acknowledges the Status Check forwarded by the Applicant on 10 May 2005. Although the PAIR File History lists a Notice of Allowability (NOA) of 22 March 2005 related to the instant case, a subsequent Special Projects Examiner (SPRE) review compels this Final Action in lieu of said NOA.

Inventorship

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Priority

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. §119(a)-(d). The certified copy has been filed in parent Application No. 09/151,531, filed on 11 September 1998.

Reissue Applications

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,099,402 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

Drawings

The submittal of amended Figure 9 on 31 January 2005 is acknowledged. The amended Figure 9 is accepted.

Oath/Declaration

The reissue oath/declaration filed on 31 January 2005 is defective (see CFR 1.175 and MPEP 1414) because of the following:

If fails to describe the specific differences between the language of the amended (and /or new) claims and the original claims that corrects the error. To ensure compliance with reissue requirements, the Examiner suggests that the relevant portions of both the original and amended (and /or new) claims be specifically quoted.

It lists the signature of the Assignee in lieu of the inventors. If a reissue application is broadening the assignee cannot sign the declaration.

Appropriate correction is required.

Claim Rejections - 35 USC § 251

Claims 1-11 are rejected as being based upon a defective reissue declaration under 35 U.S.C. §251 as set forth above. See 37 CFR 1.175. The nature of the defects in the declaration is set forth in the above in this Office action.

Conclusion

The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

German Patent Number DE 36 02 291 A1 published 30 July 1987.

Said German patent was cited in parent patent Application Number 09/151,531 and has been considered by the Examiner.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3653

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
